- *proven track record of success in federal space*

people

who understand how government works.

The dramatic evolution of technology has forever altered the global landscape. Governments must now react faster, smarter, and be prepared to deal with threats that didn't even exist a decade ago.

This new digital world requires all parties involved on IT projects to work together as a cohesive unit in order to ensure the protection of the nation's physical infrastructure. For this to occur, everyone involved on a project must understand the dynamics and intricacies of the rollout.

You can't afford to partner with someone that treats government business as a hobby.

Need a partner with a team of professionals who have walked in your shoes?

Need a partner who understands your language, your contracts, and your community?

Need a partner that navigates through tricky government processes with quick turnaround?

You need to partner with people who can make the entire process painless.

**Turn to CSC. Our people understand government.
We've got you covered.**

- *agility to overcome government obstacles*
- *creativity that saves time and money*
- *dedication to securing our country*

passion

for ensuring your project is a success.

At CSC, we understand your job isn't just about getting to the next project. Our passion and unrivaled dedication comes from a deep-seeded understanding that the projects you deploy enable the critical flow of information through government infrastructures. When you get down to it, it's about securing our country and our way of life.

It's one thing to find a partner who speaks your language and understands the complexities of your job. But, when you find a partner who is dedicated to your success and shares the same vision, you have more than a partner. You have a team.

It's our passion to understand your process, your needs, your way.

It's our passion to find creative ways to reduce costs and save time.

It's our passion that allows us to overcome obstacles and solve problems.

You need a partner that is passionate about making the entire process painless.

**Turn to CSC. Our people are passionate about government.
We've got you covered.**

"CSC has a proven track record of going above and beyond expectations to ensure my CONUS and OCONUS projects stay on-schedule and below budget. The CSC team's ability to come up with innovative infrastructure solutions and to reduce deployment costs and complexities has saved my joint command a lot of money and plenty of headaches! That's why when it comes to network infrastructure, I choose CSC."

~ MILITARY CUSTOMER, TAMPA, FL

- *latest technologies that ensure security*
- *proficiency in government processes*
- *Secure(it) provides bundled solutions*

expertise

in network infrastructure and physical security that is unsurpassed.

What would it mean to your organization to have a partner with expertise in government contracting, procurement processes, contingency operations, specialized government projects and access to the latest technology?

CSC's government expertise spans far beyond product distribution and includes a host of specialized services that will ensure your project goes off without a hitch. Our team of experts will help you cut through the red tape and integrate the latest network and physical security solutions into your project.

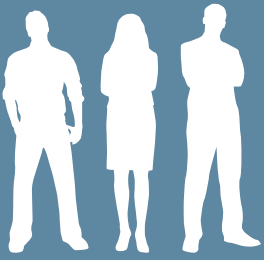

Do you need to reduce the cost and complexity of secure network deployments and construction projects?

Do you need to enhance the security and defense of command and control networks?

Do you absolutely need to hit your deadline and do it on budget?

If so, you need CSC's exclusive Secure(it) Program — designed to make the entire process painless.

**Turn to CSC. We're government network deployment experts.
We've got you covered.**

**WHY CSC? IT'S SIMPLE. OUR PEOPLE,
PASSION AND EXPERTISE.**

That's why customers choose CSC, a subsidiary of WESCO Distribution, Inc. They know our team will do whatever it takes to make them successful each and every day. They value the passion we put into everything we do, and realize — when their jobs are on the line — we'll be there with the answers they need. They view us as their trusted advisor who can help them make the transition from legacy infrastructure technologies to state-of-the-art IP solutions. It's really that simple. More and more companies turn to CSC because of our **people, passion and expertise.**
