NETWORK SECURITY INFRASTRUCTURE SOLUTIONS

WIREMOLD Secure™

WIREMOLD, the industry leader in cable management and pathway solutions since 1900, has developed a comprehensive line of secure cable pathway and enclosure products for use as a Hardened Carrier Protected Distribution System (PDS). All products are manufactured from high-quality steel and have been designed to meet the stringent requirements specified in NSTISSI 7003 while providing the following benefits:

- 1) Enhanced modularity & scalability, resulting in reduced Total Cost of Ownership
- 2) Easy to design & install with no hidden costs or 'special' contracts required
- 3) Aesthetic appearance with wide range of product colors and options
- 4) Long-term, reliable protection from overt, covert, and surreptitious attack

Secure Channel

- A solid welded, 2x2 secure channel system
- Used as stand-alone solution or for drop-offs from Secure Raceway
- Innovative stand-off & wall-bracket
- Epoxied 90° and 'T' fittings

Secure Raceway

- A modular and scalable secure raceway system
- Re-enterable* for moves, adds, and changes
- Traditional base & cover design simplifies design & installation WITHOUT sacrificing PDS security

Secure Enclosures

- A broad portfolio of secure enclosures to meet PDS requirements
- Interfaces with Secure Channel through Drop-Out fitting
- Leverage GSA-approved Combo Lock for PDS security
