Mission Statement:

MCS provides totally reliable, competitively priced, and superior mission critical solutions to public sector and commercial customers. We accomplish our mission by achieving the highest levels of customer satisfaction, with extraordinary emphasis on the creation of value. As a result, MCS is the IP-Converged Technology provider of choice for federal, state, and local governments, educational institutions, and commercial customers.

Business Description:

MCS is a converged IP solutions provider with expertise in telephony, IT infrastructure, unified communications, wireless networks, security and surveillance, IP networks, intelligent buildings, general contracting, electrical contracting, and alternative power with a focus on providing design-build solutions in the physical layer. MCS, bringing tomorrow's technology to solve today's challenges.

Company Background:

20 years ago, MCS offered the best computer parts and service to the Central Florida market. Today, through a consistent focus on leading edge technology and rock-solid business practices, MCS is one of the fastest growing and innovative, worldwide IT and converged IP service providers. MCS...designing solutions, installing confidence.

Experience:

Recent contracts include: The Fully Integrated Surveillance System and Control Center for the Department of Homeland Security's Secure Border Initiative, Nation-wide installation of the FAA's next generation GPS-based air traffic control system, the Automatic Dependent Surveillance-Broadcast system (ADS-B), one of the nation's largest wireless mesh networks for the City of Hollywood FL, and all structured cabling for U.S. Central Command's new Joint Intelligence Center, which included installing 140,000 fiber tips in 6 weeks. With 15 RCDDs and over 100 technicians with government security clearances on staff, we're ready to meet your needs.
