Mission Statement:

Information Innovators Inc. (Triple-i) mission is to establish close and collaborative relationships with our clients so we can anticipate their IT needs and provide the best services and solutions available. These partnerships build successful and long-lasting ties that guarantee consistent support and the highest quality of service. As our customers' needs grow and change, we are there with them ready to address new challenges together and have a commitment to continual improvement.

Business Description:

Information Innovators Inc. (Triple-i) is a provider of strategic planning services, enterprise services, program & project management, and information assurance & security management.

Company Background:

Information Innovators Inc. (Triple-i), is a Service-Disabled Veteran-Owned Small Business headquartered in Springfield, Virginia. We are a professional services company dedicated to delivering best-value IT services and solutions through the innovative application of our employees' experience and state-of-the-art technologies. Triple-i brings process-based solutions to high-risk, complex initiatives in Federal Government agencies and allows us to offer a range of services including program & project management, security & information assurance, systems design & integration, and enterprise architecture supports.

Experience:

We are currently working on multiple contracts with Federal Government customers including the U.S. Air Force, the U.S. Patent & Trademark Office (USPTO), Defense Logistics Agency (DLA), the Defense Contract Management Agency (DCMA), the U.S. Department of Interior (DOI), and the U.S. Department of Transportation (DOT). We bring all of the experience, creativity and intellectual capital of a large management consulting firm, and take a personal interest in our clients' success. With a hands-on approach to project management, networking, application development, security, and systems integration, we develop and integrate the people, processes and technologies that will drive projects to completion.
